THE UNION PACIFIC

RAILROAD CO.

Are now constructing a Railroad from

OMAHA, NEBRASKA,

Westward toward the Pacific Ocean, making with its connections an unbroken line

Across the Continent.

The Company now offers a limited amount of their

First Mortgage Bonds

having thirty years to run, and bearing annual interest, payable on the first day of January and July, in the city of New York, at the rate of

Six Per Cent. in Gold.

Ninety Cents on the Dollar.

This road is already completed to Julesburgh, 376 miles west of Omaha, and is fully equipped, and trains are regularly running over it. The Company has now on hand sufficient iron, ties, etc., to finish the remaining portion to the eastern base of the Rocky Mountains, 141 miles, which is under contract to be done in September of this year, and it is expected that the entire road will be in running order from Omaha to its western connection with the Central Pacific, now being rapidly built eastward from Sacramento, Cal., during 1870.

Means of the Company.

Estimating the distance to be built by the Union Pacific to be 1,565 miles, the United States Government issues its six per cent. thirty-year Bonds to the Company as the road is finished at the average rate of about $28,250 per mile, amounting to $44,208,000.

The Company is also permitted to issue its own First Mortgage Bonds to an equal amount, and at the same time, which by special Act of Congress are made a First Mortgage on the entire line, the bonds of the United States being subordinate to them.

The Government makes a donation of 12,800 acres of land to the mile, amounting to 20,032,000 acres, estimated to be worth $30,000,000, making the total resources, exclusive of the capital, $118,416,000; but the full value of the lands cannot now be realized.

The authorized Capital of the Company is one hundred million dollars, of which five million have already been paid in, and of which it is not supposed that more than twenty-five million at most will be required.

The cost of the road is estimated by competent engineers to be about one hundred million dollars, exclusive of equipment.

Prospects for Business.

The railroad connection between Omaha and the East is now complete, and the earnings of the Union Pacific on the sections already finished for the first two weeks in May were $113,000. These sectional earnings as the road progresses will much more than pay the interest on the Company's bonds, and the through business over the only line of railroad between the Atlantic and Pacific must be immense.

Value and Security of the Bonds.

The Company respectfully submit, that the above statement of facts fully demonstrate the security of their Bonds, and as additional proof they would suggest that the bonds now offered are less than ten million dollars on 517 miles of road, on which over twenty million dollars have already been expended; —on 350 miles of this road the cars are now running, and the remaining 167 miles are nearly completed.

At the present rate of premium on gold these bonds pay an annual interest on the present cost of

Nine Per Cent.,

and it is believed that on the completion of the road, like the Government Bonds they will go above par.—The Company intend to sell but a limited amount at the present low rates, and retain the right to advance the price at their option.

DOWNER

KEROSENE OIL COMPANY,

Office, No. 108 Water Street, Boston.

TO CONSUMERS OF OIL

CAUTION.

It having come to our knowledge that many dealers throughout New England, are in the habit of buying a small quantity of our Oil, and larger quantities of inferior oils, and using our brand and packages fraudulently in the sale of these inferior oils, we are determined to stop such frauds, and hereby offer a REWARD OF 100 DOLLARS for information that will lead to the detection and punishment of any party using our name or brand in the sale of any other than our own Oil. The **"Downer Kerosine Oil"** has been frequently tested and analyzed by Dr. A. A. Hayes, State Assayer, and in a communication to us, dated July 8, 1861, he says: "The term Kerosene as used by the **Downer Oil Company,** applies to the highest grade of Oil only, which, our trial shows does not inflame below about 120 degrees Fahrenheit, and carries the assurance of both safety and excellence with it; while the mixed Oils are not only unsafe, but in causing accidents, destroy confidence in the safe and excellent article for affording light produced by the honest manufacturer."

DICKIE LEE.

Oh, Dickie Lee! Oh, Dickie Lee
Of the sunny days gone by;
The bonny lad I called my Love,
The bonny lad that loved no other,
No other lass but me!
Oh, we were in love when our years were few
And our hearts were fresh as the morning dew—
Six years was I, and seven was he;
And since those days long years have passed—
Long years of bloom and of blast
But in them all there never grew
A love more sweet, a love more true,
Than that of Dickie Lee!

I often think of Dickie Lee,
And the summers long agone
Of the old school-house and the little rook,
With its mossy bricks in the shady brook,
Where we would fish, till the bell did ring,
With "our home made line" of a bonnet string,
And a crooked pin that served for a hook,
And learned more joy than the spelling-book,
But if we're late, and the teacher cross
The blow and rebuke I 'he minded as dross,'
And during it all, I only could see
The sparkling dark eyes of my Dickie Lee.

I wonder now if Dickie Lee
Looks back across the years,
Smiling, perhaps, at the thought of me,
And the funny times we used to see,
In that school-house of yore!
On the little bench close by the door,
The little bench that would hold but four—
Jamie, Lois, Dickie and me—
And the books of the flock were we—
I wonder now if he ever thinks
Of the dreadful time he stole the pinks
And roses rare to give to me?
And what befell poor Dickie Lee?

They tell me that my Dickie
Is a man of wealth and pride;
That he has ships upon the sea,
Titles, too, of a high degree,
And that a lady became his bride,
Very well, so let it be,
Dickie have I been as he.

'Tis many a year since he was my lover,
Loving me well, and loving no other;
'Tis many a year since the barefooted lad
Romped close by my side, making merry and glad;
'Tis many a year, 'tis many a year,
That seals up the past and brings down a tear—
But I think of him yet as a laughing boy
Knowing or dreaming of naught but joy,
Unless he dreamt of me.
And I would not see the man of care
That calls himself Richard Lee
That has wasted cheeks and thin gray hair,
For, oh! he would steal from me
Something I love and cherish well
An image shrined in a secret cell,
And it is dear to me;
Though the face is freckled, and plain and lean,
Yet memory calls it bright and serene,
And keepeth the spot of its dwelling green
For the sake of Dickie Lee,
The little boy that long ago
Was really in love with me!

SUMMER HOTELS.

They are discussing in Boston a project to erect a large hotel at the White Mountains to contain over 200 rooms, and to be so conducted as to obviate extortionate charges, by dispensing with costly table luxuries obtained from the city, and making a speciality of articles of food peculiar to mountain regions—such as fresh lamb, beef, brook trout, all descriptions of berries, and fresh vegetables, honey, &c., to be afforded at moderate prices. In addition to this large central hotel, the Company (which is said to be a strong one) proposes to erect a number of cottages, to be rented to families, who may board themselves or take their meals at the hotel.

The New York *Times* characterizes this as the most sensible thing it has heard of in connection with the business of providing entertainments for summer tourists. Whether this sanguine opinion of the *Times* is well founded or not, we are not prepared to say; but what may be a singular coincidence of views, we will state that, less than two weeks since, we had part in a conversation with two gentlemen who are familiar with the resorts on the coast of Maine, one one of whom gave it as his opinion that what was wanted was a hotel of the description quoted above, and he said he would only ask its income for five years, and would then be ready to retire.

The paper quoted says there is a great increase in the cities in the number of people who are desirous of spending a few weeks each season for health and recreation, at some Summer resort, either among the mountains or by the seaside or at some of our mineral springs and who would do so if the expense were not beyond their means, and, it continues: We believe that if the project we are now mentioning be carried out, it will be such a success as to induce the building of scores of similar establishments throughout the country.

The matter is certainly worth thinking of by those who invest in hotel property, and it may well be considered whether there is not in this a hint of the best way to make hotel keeping pay. If so, the success of such a plan would be to the benefit of all parties concerned.

It will be remembered that a few months since, when the ritualistic combat of the church militant was at its height in England, Parliament recommended and the Government appointed a Royal Commission for making a full and impartial inquiry into the the differences of practice which had arisen from varying interpretations put upon the rubrics and regulations of the Church. The Commission have reported, and direct their attention especially to the question of certain lately introduced vestments. They say that while these vestments are regarded by some witnesses (examined in the course of the investigation) as symbolical of doctrine, and by others as being a payment of distinctive honor to the Holy Communion as the highest act of Christian worship, they are regarded by none as essential, and they give grave offence to many. They therefore recommend that it is expedient to restrain all variations in respect to vesture from that which has long been the established usage of the Church.

How much entertainment the public generally may derive from reading the seven or eight columns of "Claims filed in the Department of State by American citizens, native or of foreign descent, as owners, mariners, freighters and insurers," of sundry vessels captured by the Anglo-Confederate cruisers *Alabama*, *Florida*, and *Georgia*, it would be hard to say. But we can imagine the well-earned satisfaction of the "gallant" SEMMES and his colleagues when they see this authentic and indubitably veracious chronicle of their daring deeds. How the warm blood will tingle through their veins as they remember the terrific combats which they waged with unarmed men and helpless passengers! What warlike joy will swell their souls as they recall the glorious strife which shook old ocean when they pocketed the chronometers and the cash of those valiant merchantmen, and sent the vessels, charred and blackened, to the bottom of the sea! What delight it will give them, in reading of those destroyed millions, to "fight their battles o'er again." We wish them happiness in the retrospect.—*N. Y. Times.*

EXPLORATIONS IN THE INDIAN COUNTRY.—A St. Louis dispatch of the 13th has the following in connection with intelligence already published:

"The Montana *Post* says that an exploring party, which had been to the headwaters of the Yellow Stone River, had just returned, and reports seeing one of the greatest wonders of the world.

For eight days the party travelled through a volcanic country, emitting blue flame and a living stream of molten brimstone. The country was smooth and rolling, long level plains intervening between rolling mounds. On the summit of these rolling mounds were craters from four to eight feet in diameter, and everywhere on the level plains were smaller craters from four to six inches in diameter, from which streamed a blaze and a constant whistling sound.

The hollow ground resounded beneath their feet as they traveled, and every moment seemed to break through. Not a living thing was seen in the vicinity. The explorers gave it the significant appellation of Hell.

The peace Commissioners held a meeting at Omaha on the 12th, and expect to start for the North Platte on the 14th, there to meet "Spotted Tail," who promises to bring in the principal members of his band.

General Wright Chief Engineer of the Union Pacific Railroad Kansas Branch, with a party of engineers, is between Los Vegas and Santa Fe, and is reported to have found five railroad routes.

WESTPORT.—The Sabbath-school of the Pacific Union Church in Westport, had a very pleasant gathering on Tuesday of last week, in the grove of the superintendent, Hon. C. A. Church, where a bountiful repast was provided at the expense of Mr. C.

Matters and Things in the Metropolis—The Fashionable Pleasure Travel—Spirit Rappings—The Old Colony and Newport Railroad, and the Newport and New York Line of Steamers—Oliver Ditson, &c., &c.

BOSTON, Sept. 13, 1867.

EDITOR DAILY NEWS:—Matters and things in the eastern metropolis, though not of any direct excitable character, are of peculiar interest, aside from a political point of view. The public pulse is very quiet, and business of all descriptions is unusually brisk for the season of the year and the condition of the chequered affairs of the nation which now assume so strange and peculiar a form that no one seems to understand what will be the consequences of the strange proceedings that are now being enacted.—All eyes are turned upon Washington.—Every move is watched with the greatest fear and anxiety, which perhaps invests the people of the United States, just at the present with more alarm than at any time within the history of the country. But

"Guided by an unseen hand,
We'll fight the battle o'er,
For right and peace, that has been fought
By nations o'er and o'er."

The influx of fashionable pleasure travel from Niagara, Saratoga, Montreal, Quebec the White Mountains, &c., is immense, whilst the exodus is mainly for New York via Newport, conspicuous among which are large numbers of Europeans, who after spending a charming summer in going the rounds of the great fashionable summer tour of America are en route for Paris to see the glories of the closing scenes of the Grand Exposition.

Spirit rappings have become so notoriously ridiculous that people no longer give the thing hardly a passing notice. But, in this case, I must confess to be something of a convert to the mysterious phenomena.—For some time past the spirits have been rapping, about a public testimonial to Mr. L. Y. Tilton, of the steamer *Newport* of the Newport and New York Line. They have agitated the thing time and again.—These demonstrations, together with public rumors, led me to inquire into the matter, when I found that the rappers are right, as Mr. Tilton, I understand, is soon to receive a handsome testimonial (but in what shape has not yet transpired) from the travelling public who have passed over the great eastern route from New York to Boston via Newport, on board that boat, for his kind, courteous and considerate attentions, whilst under his immediate care, and for the unexceptionable general good management of his department, which has called forth universal commendations from time to time, both from the public and the press. Surely, this is a right move on the part of the public towards Mr. Tilton, who is a most estimable gentleman and an unexceptionable officer.

The Old Colony and Newport Railroad in connection with the floating palace steamers of the Newport and New York line, are, indeed, public favorites. The enviable reputation so long established by this great route between Boston and New York, for elegance, safety, speed and comfort, has rendered the route the most famous and favorite for the fashionable pleasure travel, that connects these two great cities. There may be, as time developes the improvements of the age, a dozen other routes established between Boston and New York. But never can there be a route established that can be so delightful and so favorite as that via Newport, from here to the City of New York. The great influx of people over this route has called the directors of the steamboat line to consider the propriety of putting on two steamboats a day, instead of one, which is found inadequate to accommodate the people. Next season, I think they will dispatch two boats daily, one to leave Newport immediately on the arrival of the train that leaves here at half-past four p. m., and the the other after the five and a half train arrives as it does now. This will add much to the acquisition of the route, as well as to the public comfort and convenience.

The great Music publishing house of Oliver Ditson, Esq., is still carried on by that gentleman. He has no idea of abandoning the business by selling out to his son. He has established his son in business on Broadway, in the city of New York. Mr. Ditson is advancing his business to a still greater magnitude. Indeed, he is one of the largest Music publishers in the world, and has perhaps as extensive a trade as any other man in the same line of business on either continent. The great perfection to which he has brought this business has given him a most decided preference over other Music publishers in the United States, and has given him such great celebrity, and trade.

The weather here is perfectly splendid. Clear, cool and invigorating, whilst the lovely moon light nights add greatly to the enjoyments, in the way of Excursions down the bay and other points of attention. The "*News*," though not circulated in Boston as extensively as it should be, is snugly sandwiched in with the New York papers at the various hotels and news-rooms. Newport with her incomparable beach, and numerous fine drives beside the new one in course of completion, together with other beauties and natural attractions will yet draw thousands of visitors this year, to witness them. After the close of the Ocean House, the fashionable pleasure travel will be delighted to hear that the Atlantic Hotel and the Aquidneck House will remain open all this month and a portion of next, for the reception of guests. They have made a still greater reduction in their prices for board which will be a still greater inducement for tourists to visit the beautiful Island of Newport. Mr. Hazard of the former hotel and Mr. Hodges of the latter have determined that people shall find first-class accommodations at Newport, as reasonable if not more so than at any fashionable resort on the continent. Yours &c.

VESSEL ON FIRE.—Ship *Kearsage*, Capt. Hallowell, from New Orleans of and for Boston with a cargo of 2,721 bales of cotton, arrived here at 6 P. M. Saturday, in tow of British steamer Pioneer. On Friday night, about 9 o'clock, smoke was discovered issuing from the hatches of the Kearsage and it soon became evident that the vessel was on fire in the hold. Commenced burning blue lights, and attracted the notice of British steamer Pioneer, from Cow Bay, Cape Breton, for New York, Captain Shackford, who consented, at the request of Capt. Hallowell, to lie by them. This was about 60 miles southeast from Gay Head. At 1 A. M., Saturday, kept away for Newport, where she arrived as above stated, smoke rising quite freely from her hatches, and her timber heads, including the brass work on the top, burnt through.

On her arrival she was boarded at once by the Underwriters' Agents, Messrs T. & J. Coggeshall, and what was done afterwards was under their direction, in concert with Capt. Hallowell. The first thing was to send on shore for three Fire Annihilators, which were applied under the direction of the agent for their introduction in this city. The event proved that they were wholly inadequate to a work of this magnitude, the vessel being evidently on fire fore and aft.

About 6 P. M. the steamer which towed her in was laid along side and her steam pump set in operation and a stream turned upon the fire. This appearing also insufficient, it was decided to tow her to within one hundred feet of the Old Colony Wharf and get streams from the two steam engines, which was done. The steamers commenced working about 8 o'clock, as did also hand engine No. 2. The hand engine withdrew about 10 o'clock. The others continued playing until 3 o'clock yesterday afternoon, when the ship filled with water to her main deck the smoke ceased to arise from her and the fire was considered as extinguished.

It is calculated that the two steamers poured into the ship four hundred hogsheads of water an hour, while the Pioneer's pump did about half that. The steamer hauled away about midnight to prevent grounding, and did not return to the work until 5 A. M. yesterday, when she resumed pumping until about 8 o'clock, at which hour she sailed for New York.

It is impossible, at this stage, to determine the amount of damage to the ship. Her decks are nearly ruined, and many of her deck timbers are burned nearly or quite off. The principal damage to the cargo is probably from water, the fire being apparently mostly confined to the wood work.

The Kearsage is a ship of about one thousand tons, built in 1861, and cost when new one hundred thousand dollars. She was probably one of the finest ships afloat, having magnificently finished and furnished cabins, and being well found in every particular.

A steam pump is expected to-day, from Boston, and the ship will be pumped out and probably be towed to that port to discharge and repair.

Too much praise cannot be awarded to the managers of the steam fire engines, and particularly to Luke Bliven, Jr., Chief Engineer of the Fire Department, for their exertions in extinguishing this fire. The work was entirely gratuitous on their part there being no claim upon their services; yet they worked unremittingly until the work was accomplished.

INCIDENTS OF THE MUSTER.—The American Brass Band had a sensation Friday morning arising from one of its members, Mr. A. M. Pond, finding a $50 greenback in a paper of John Anderson's Amulet Tobacco purchased on the camp ground. It was considered a legitimate subject for legal proceedings, and a court was at once convened, of which Abraham Kenyon was Chief Justice, and H. Dana and W. E. Whiting Associate Justice. A. C. White and W. Haskell were counsel for prosecution, and C. J. Pullen for defence. The charge, conspiring to defraud the Band, and after listening to the evidence in the case and the arguments of counsel, the Judge found the prisoner guilty and reserved sentence.

ACCIDENT TO THE METROPOLIS.—Steamer Metropolis, from New York, while entering the harbor, yesterday morning, and when between Fort Adams and the South point of Goat Island, struck ground, it being very low tide, and made a large hole in her bottom, causing her to leak and fill to her cabin floor. The leak, however, was kept under by means of her steam pumps, and afterwards reduced by a diver packing the hole. She has been taken to New York for repairs. The Empire State takes the place of the Metropolis on the line to-night.

PROLIFIC.—The efforts of nature to do more than her share of work this season are shown in the productions of a crab apple tree belonging to Mr. Thomas B. Sherman. The first crop came along in its season and consisted of well grown crab apples; a second effort was abortive, resulting only in blossoms which "set" no fruit; and the tree is now in blossom for the third time.

NAVAL.—United States Steamship Susquehanna, flagship of the North Atlantic Squadron, Admiral Palmer, Commander D. M Fairfax, arrived here yesterday morning from Fortress Monroe, on a cruise. She is at anchor near Fort Adams, and will probably remain a few days.

SUPREME COURT.—The September term of this Court commences in this city to-day. It will probably adjourn until to-morrow morning at 10 o'clock. There is quite a large criminal docket.

RUNAWAY.—We learn that on Thursday as Mr. August Belmont's carriage and four were descending the hill to the beach, the axle broke letting the carriage down. The horses ran as a far as the second beach, damaging the carriage but, so far as we are informed, injuring no person.

Cunningham's Emporium.

A few days since we had the pleasure of visiting the mammoth Emporium of B. P. Cunningham, at the corner of Broad and Eddy streets. On approaching the building, we were impressed, as doubtless most of our readers have been impressed, with the fact that, in getting up an imposing establishment, the painter's art is a very essential requirement. Mr. Cunningham seems to have fully appreciated this truth, as the neatly painted walls of his four-story brick store bear ample witness. You read, in great black letters, upon a ground-work of pale yellow, that you have reached Cunningham's warehouse; and this being your destination, you of course enter the commodious doors of the Broad street entrance, when you find yourself in a cool, high-walled room, sixty feet in width and more than a hundred feet in length, surrounded by a multitude of articles essential to the complete appointment of a palace or a cottage. What more particularly strikes you, however, is the great array of crockery and glass ware. Tiers of shelves in different parts of the room are packed with this class of goods, among which are some of the rarest and most beautiful specimens of China and porcelain ware ever introduced into this country. The designs on some of the articles are in the highest degree artistic, and present a harmonious blending of colors which would garnish any painting. The stove show room is also on this floor, and in it will be found stoves of every conceivable pattern, from the mammoth heater to the smallest cooking range. Nearly in the centre of the main apartment is an inclosure—a sort of "wheel within a wheel"—in which is the cashier's desk. Here stands that official, with a business-like look upon his face, such as he has an eminent right to wear, receiving the streams of greenbacks which flow in from the different sources of the Emporium, while busy assistants, with nimble fingers, dexterously "make change" and render unto each customer that equal and exact justice which Uncle Samuel's fractional currency enables them to dispense to the utmost fraction.

Leaving the crockery, the stoves, the brushes, the business-like cashier and the busy assistants, we ascend a broad stairway to the second floor. Turning to the left, we find ourselves in the carpet room, surrounded by the products of the looms of France, Persia, England and other countries. Here you find tapestries fit for the feet of the gods to press; others with woven combinations of gorgeous flowers and plumaged birds of many hues; others with a soft warmth of coloring, which leads one's thoughts to pictures of tasteful homes and smiling wives in the midst of them; and others still, of cheaper fabric, which, while they find no place in the mansions of the rich, brighten and adorn the dwelling of the workingman, and make him feel a glow of honest pride in it. Then, too, you will find all classes of customers here, from those who come in panneled carriages with liveried servants in attendance, and who can draw checks for many thousands, to those who bear upon their faces the stamp of weary toil, and whose worldly possessions could be enumerated in less time than some fine lady could count up her new dresses. Yet all receive here the same courteous attention, and all find something in the fall collection to meet their wants and the dimensions of their purses. We learn from Mr. Cunningham that he does a business in carpets alone, amounting to one hundred thousand dollars annually.

Passing through the carpet department, we come to a smaller room, stored with oil cloths, mattings, and window curtains, of all styles, grades and prices.

Beyond, is a room filled with sample chairs—chairs with sofa-cushioned seats, chairs with spring bottoms, chairs of rosewood, black walnut and mahogany, and chairs of pine and cheapest material.

A little to the left is the sofa room. There are some truly elegant specimens of this species of furniture in this room, made of costly woods and covered with the richest material. They present a general appearance of easy luxury, which seems to woo humanity to repose within their easy depths—sofas which would ornament a palace, and grace the boudoir of a queen.

Adjoining the sofa room is the repository of green rep and hair cloth parlor sets, well stocked with the finest goods of this description.

Then come two rooms filled with lounges made at the establishment; and very cosy, pleasant-looking lounges they are.

There are seven other smaller rooms on this floor, where looking-glasses, and various varieties of cheap furniture are kept, but with merely a passing glance at them, we ascend a second flight of stairs to the third story.

The first room we enter contains some of the heaviest styles of black walnut chamber sets, richly carved and scrolled, bearing evidences of their substantial worth.

Going a little further, and through another door, we come to the painted chamber sets. On these sets the decorator's art has been profusely expended in elegant designs, flowers, etc.

Another door opens into the repository of stuffed furniture, and still another brings us to the department where marble topped tables are stored. There is not a table here which is not a work of beauty, and the tops of some of them are veined and mottled superbly.

On this floor is the work-shop where stoves are made, rooms in which parts of different articles of furniture are stored, rooms where these parts are put together, and a room containing a kiln for renovating and purifying feathers.

The entire fifth floor is a sort of general store house, filled with all the different kinds of articles which we have described before. We noticed here, however, specimens of articles found in every well regulated household, which had escaped our attention on either of the lower floors, but which would probably be the first to catch the eye of blushing young mothers, the same being cradles. No nursery can be complete without one of Cunningham's cradles.

The sixth floor is a repetition of the fifth, and it is therefore unnecessary that we should more than allude to it.

There is an elevator at one end of the building, on which all goods are readily transferred from one floor to another, or to the exit on Eddy street, where teams are in readiness to convey them to any desired point. It may be well to remark here that Mr. Cunningham has three teams constantly employed in delivering goods which have been purchased, and frequently finds it necessary to employ other assistance.

Besides the main establishment which we have described, there are several smaller buildings used for various purposes, and in which different kinds of work are done. One of them is a stove and stove furniture warehouse. Here are stoves, grates, bricks, linings, &c., everything used in the different make up of a stove, and for repairing it, or furnishing it with new parts.

In this building is the chair painting department, and a room where staining and varnishing in all branches are done.

There are, besides, two rooms, where material is stored, and a room where the upholstery part of the business is carried on.

In the rear of this building is the general paint shop, where painting of every description is executed.

Altogether, these buildings extend back a distance of three hundred feet on Eddy street.

Perhaps we have given in this hasty sketch some idea of the magnitude of Cunningham's grand Emporium, but we feel that we have not done anything like justice to the magnificent array of costly and elegant goods which came under our notice during the pleasant hour we spent in passing through the different departments. Indeed, it is not possible to give, in an article suitable to the columns of a daily newspaper, such a description as would adequately convey to the mind of the reader a correct estimate of this mammoth institution. Probably there is no similar establishment in the country, perhaps not in the world, where so great an amount of business is done, and where so many styles and varieties of goods may be seen.

Among the many articles for the use of business men, we might suggest that photographs of a very fine assortment of office desks can be seen on request. From these, an excellent article may be selected, for the complete furnishing of the counting-room, at prices varying from the most moderate figure to the most liberal extent.

Before closing, we must not omit to make mention of Mr. Cunningham's system of loaning goods—a system peculiar to this establishment, and one which has been the means of great convenience and benefit to many families. It is in this wise: Parties wishing house-furnishing articles, and who are not prepared to pay ready cash therefor, are allowed to take goods on loan, upon paying a certain amount per week or month, and when the price of the goods borrowed has all been paid, said goods become the property of the borrower. By this arrangement many a young couple, starting out in married life, have been able to furnish a house and "set up housekeeping," while the amount per week which they were enabled to save from the cost of boarding, soon aggregated sufficient to liquidate the merchant's claim. It is, also, in many cases, a convenience to business men, who do not want to spare a large amount of money, which might be more profitably employed. Of course, all transactions in this line are over and above the cash business of the emporium, which amounts to hundreds of thousands of dollars annually.

It may not be inappropriate to mention that the history of Mr. Cunningham is similar to histories of so many other prominent American merchants—that of a poor boy, who has worked his way to the pinnacle of a vast business. If we may judge anything from the fact that all the goods in the Emporium are paid for, and from the appearance of Mr. Cunningham's elegant residence on Broadway, we should think it safe to say that the owner of the establishment we have sketched, is "comfortably well off."

For many years Mr. Cunningham has ranked among our most reliable merchants. Doing a strictly cash business, when other firms have been tossed and shaken in financial storms, he has safely outridden the tempest and been able to lend a helping hand to those who needed aid. Strict attention to business; the use of liberal and extensive advertising, which Mr. Cunningham knows full well the value of, as a means of bringing to the knowledge of the public, the varied articles of his Emporium; promptness in all his transactions have been among the elements of his success. Built on a permanent foundation there is no reason why such success should not continue to afford to the young an example of what may be accomplished by devotion to business and an adaptation of one's means to the end of obtaining a fortune.

LENT'S NEW YORK CIRCUS.—This celebrated Metropolitan Troupe, which is to exhibit here on the 23d inst., is permanently located in New York on Fourteenth Street, opposite the Academy of Music, and only travels for a short time, each year, during the warm weather. It is now on its way home after a most successful season, and will re-open at its winter quarters a week or two after performing here. The reputation which the company sustains where it is best known, may be inferred from the following notice taken from the columns of the *Home Journal*:

"Mr. Lent, at the end of a prosperous season, may well congratulate himself upon having accomplished that which many of our theatrical managers might well aspire to—the elevation of the general character of those amusements which fall legitimately under his control and direction. That he has made the Circus an entertainment which the most fastidious may enjoy, has been proven by the first class audiences who have appreciated and rewarded his efforts. If the same spirit of refined enterprise is to characterize the Circus *Troupe* during their summer tour through New England, our provincial neighbors and friends will have an opportunity for enjoying a treat which we can but illy spare them even for a few months."

The good work undertaken by the Washington Library Company of Philadelphia, for the endowment of the Riverside Institute as a National Home and College for the orphans of those soldiers who were fed at the Noble National Refreshment Saloon of that city, goes bravely on. That their noble object may be most surely accomplished, they have issued five series of fine steel-plate engravings, one of which is given with every share of stock sold, at prices much below their retail value. In connection with this superb inducement, every shareholder is guaranteed a present in the great distribution of $300,000 worth. Many of them are quite fortunes of themselves. We notice that one is worth as high as $40,000, another $20,000, another $15,000, one $10,000, one $5000, two $2000 each, and a large number ranging from $1000 to $50 each. Read Advertisement.

No. 2.

DR. SCHENCK'S
NEW OFFICE.

DR. J. H. SCHENCK, of Philadelphia, has opened an office on second floor of No. 35 HANOVER STREET, Boston, where he will be professionally every WEDNESDAY, from 9 to 3. Every person complaining with Consumption, or any disease leading to it, is invited to call on him. He gives advice free, but for a thorough examination with his Respirometer the charge is five dollars.

Dr. Schenck can explain to patients very correctly the stage of their disease, and how to use his medicines, namely, his Pulmonic Syrup, Seaweed Tonic, and Mandrake Pills, without the use of the Respirometer; but by it he can tell exactly how far the lungs are gone, and what part also; whether it is Tuberculous, Pulmonary, Bronchial, or Dyspeptic Consumption, or whether it is merely an ulcerated throat and catarrh, or from liver complaint.

His medicines have full directions, so any one can take them without seeing him; but if they live nearby, and are well enough, it is best to see him. All three of his medicines are required in nearly every case of lung disease, for it is impossible to cure Consumption unless the stomach and liver are kept in perfect order. To get lungs in a healing condition the stomach must be cleansed, and an appetite for good rich food created, so as to make good blood before the lungs will begin to heal; then the chills and night sweats will stop, and the expectoration become free and easy.

He keeps a full supply of medicines at his rooms, which can be had at all hours.

Price of the Pulmonic Syrup and Seaweed Tonic, each $1.50 per bottle, or $7.50 the half dozen. Mandrake Pills, 25 cents per box.

GEO. C. GOODWIN & CO., 38 Hanover Street, Boston, General Wholesale Agents for the New England States. For sale by all druggists.

What the Press says!

We are seldom called upon to chronicle a thing so worthy as of HOFF'S MALT EXTRACT BEVERAGE OF HEALTH. It is just the thing the public have long needed in the way of a healthful beverage, and its effect upon the system is charming.

It is a fluid resembling beer, contains the least particle of spirit, and has been proved by analysis to contain an addition to malt, sugar, gluten, carbon, lupulin, certain ingredients of VEGETABLE origin, to which in certain form of diseases it owes its beneficial and powerful effects as a remedy.

Already it is recommended by our first-class physicians, and used by the first families in the metropolis as a beverage and a remedy with the most healing effects for weak persons. It is extremely beneficial, as it brings back the glow of health to the careworn cheek, and strengthens and braces up the system, and wards off disease. Mr. L. Hoff has received the encomiums of all nations, has established himself in all parts of the Old World, and his beverage is extensively known and used where all spirituous liquors and ales are discarded.

As a health-giving beverage for the SICK and WELL, it has no equal. We hail with delight Mr. L. Hoff's advent in New York. His establishing a depot in this city, we learn, was through the DIRECT instrumentality of our first physicians and doctors of hospitals.—[*From the N. Y. Tribune.*]

WISTAR'S BALSAM OF WILD CHERRY.

This remedy has long been cherished by the community for its remarkable efficacy in relieving, healing and curing the most obstinate, painful and long-standing cases of *Cough, Cold, Influenza, Sore Throat, Bronchitis, Whooping Cough, Croup, Asthma, Inflammation of the Lungs*; while even *Consumption* itself has yielded to its magic influence when all other means have failed. Its whole history proves that the past has produced no remedy of equal value, as a cure for the numerous and dangerous pulmonary affections which prevail all over the land.

UNSOLICITED TESTIMONY.

From ANDREW ARCHER, Esq., of Fairfield, Me.

"About eight years since, my son, Henry A. Archer, now Postmaster at Fairfield, Somerset County, Me., was attacked with spitting of blood, cough, weakness of lungs, and general debility, so much so that our family physician declared him to have a "SEATED CONSUMPTION." He was under medical treatment for a number of months, but received no benefit from it. At length, from the solicitation of himself and others, I was induced to purchase one bottle of WISTAR'S BALSAM OF WILD CHERRY, which benefited him so much I obtained another bottle, which in a short time restored him to his usual state of health. I think I can safely recommend this remedy to others in like condition, for it is, I think, all it purports to be—THE GREAT LUNG REMEDY FOR THE TIMES!

"The above statement, gentlemen, is my voluntary offering to you in favor of your Balsam, and is at your disposal."

Prepared by SETH W. FOWLE & SON, 18 Tremont St., Boston, and for sale by Druggists generally.

SCROFULA.

The Rev. Geo. Storrs of Brooklyn, N. Y. says, in the Bible Examiner, by way of an apology for publishing a medical certificate in his Magazine, of the cure of his only son of Scrofula, "after dissolution appeared inevitable." "We publish this statement, not "for pay, but in gratitude to God who has thus answered prayer, and in justice to Dr. Anders; being "satisfied that there is virtue in the Iodine Water "treatment, which the readers of this Magazine will "thank its Editor for bringing to their notice."

NEW ADVERTISEMENTS.

Important Auction Sale of Valuable Real ESTATE:

WE shall offer at Public Auction, on WEDNESDAY, September 25th, at 12 o'clock, noon, on the premises, the late Villa of Mr. Charles Mixter, at Ocean Point, Newport, R. I.

The property consists of 1 82-100 acres of ground running through the Lodge Avenue to the sea, with a valuable cove for gravel and seaweed, protected by a heavy sea wall. The improvements were made by the owner who has been the only occupant, in the most thorough manner. The walks and carriage road are stoned so as to drain the entire place to the sea. The fences, gateways, cellar partition walls are of stone.

The house was built by the day from pine and chestnut lumber, and in the best thorough manner, contains a large fine hall, and fifteen rooms, with abundant closets and pantries, with all the modern improvements. Heating, inside and outside fastenings of copper or brass. Stabling for four horses. Carriage house, and servant's room in stable, and shed under stable readily available for alteration into stalls.

An excellent well of water, blasted out of the rock. Filtering cisterns for house and stable. Feeding pits laid in cement, a large vegetable garden, and flowering shrubs and plants in great variety. A Bleachery constructed of locust and pine, copper-fastened.

The situation is regarded as one of the finest on the Island, being but five minutes walk from the bathing beach, commanding a view of the new avenue, Spouting Horn Rocks, Gooseberry Island, Price's Neck, Cherry Neck, and Brenton's Reef, forming the finest range of Surf Rocks on the Atlantic shores. The South View is directly upon the ocean.

The place is sold on account of the owner's intended departure for Europe.

The grounds can be examined at any time (Sunday excepted), and the house, upon application to Messrs. Hazard & Apthorp, can be examined between 10 and 11 o'clock, A. M., any day previous to the day of sale.

Teas! Teas!! Teas!!!

Something New.

The Great American Tea Company Outdone.

W. & P. DRYER, No. 15 Broad Street,

MAKE the following propositions: They will put up at the market price one hundred pound papers of English Breakfast Oolong and Hyson Teas, such as they are now retailing for one dollar per pound, and deliver the same on the 25th of September at the residences of purchasers. In every tenth pound will be enclosed a one dollar greenback, so that the purchaser will get his tea for nothing. By this arrangement no one will pay above the regular price, so that there is no possible loss. As will be seen, the tea is sold on the average at a deduction of ten per cent., or at our

WHOLESALE PRICE,

which is simply what is proposed to be done.

We are only enabled to do this by our connection with an extensive wholesale tea store in New York, from which we purchase at the lowest rates.

EVERY POUND WARRANTED.

If the tea when tried is not satisfactory it may be returned in exchange for any other kind or quality in the store. The whole thing is to be done on perfectly honorable principles, and is no catch-penny affair.

Orders may be handed in at once.

If the whole number of packages are not sold at the day of delivery the proportion the number will be disposed of according to the above terms.

These are not a cheap tea provided for the purpose, but a **regular standard article.** Other grades may hereafter be sold in the same way. Now is the time to send in your orders.

GOLD MEDAL.

An Admitted Fact.

It is admitted by all that ELIAS HOWE, Jr., President of **The Howe Machine Co.,** was awarded a GOLD MEDAL at the Paris Exposition.

Also, it is admitted that the *Grand Cross of the Legion of Honor* was conferred upon ELIAS HOWE, Jr., by the Emperor Napoleon. These were the HIGHEST HONORS ever awarded to a *Sewing Machine Manufacturer.*

THE ONLY QUESTION IS,

For what did ELIAS HOWE, Jr., *receive these honors?* He entered the Exposition as a MANUFACTURER of Sewing Machines, *not as "Inventor."* *He did not apply for or receive his Gold Medal as "Inventor."*

The AWARD speaks of Mr. HOWE as "*Promoter*" and "MANUFACTURER" of Sewing Machines.

Mr. HOWE (who is supposed to know) says the GOLD MEDAL was awarded to him *for his Sewing Machines exhibited*, AND FOR NOTHING ELSE.

Now in all fairness we ask, *Whose Sewing Machines* took the FIRST PRIZE at the Exposition?

Let common sense answer, and we are content.

FIRE IN CINCINNATI.

CINCINNATI, Sept 14.—A fire last night in a block of watehouses, corner of Sixth and Baymiller streets, destroyed five. The total loss will reach $100,000.

CONSTANTINOPLE, Sept. 11.—A fireman from the Sublime Porte, granting a general amnesty to Greek insurgents in the island of Candia, has just been officially promulgated. The Turkish Government has concluded not to send to Candia, as was proposed, a mixed Commission, consisting of Ottoman and Greek members, to inquire into and report upon the grievances of the Cretans.

Newport News, Elizabeth River, and James River are still covering with their placid waters the wrecked and sunken hulls of numerous men-of-war, gunboats and merchant vessels destroyed at one time or another during the rebellion. Wrecking companies have been engaged in raising and removing these often valuable wrecks for more than three years, and yet the work is far from being accomplished. In the Elizabeth River alone, from the Navy Yard at Norfolk down to Newport News, there have been raised more than twenty wrecks of men-of-war, among them the famous frigates United States and Congress. The Cumberland, sunk by the rebel ram Merrimac, and the Florida, which, which went down in a mysterious manner while riding at anchor on a calm night, are still under water off Newport News.

VANDALISM.—Some reckless villians threw several stones at the steamboat train as it was passing Coal Mine Station last evening. The English car was somewhat defaced. This is not the first case of the kind that has come to our knowledge of late. In fact it is becoming quite common for mischievous boys to throw missiles at passing trains. Only a short time since a stone passed through the window of a car, hitting a lady on the side of her head. We hope that efficient measures will be taken to bring these rascals to endure the full penalty of violated law.—*F. R. Times, 13th.*

SECTARIAN BANDS BURSTING.—The evidences of a growing liberality in all sects is increasing every day. Among the most recent we remark the following: Prof. S A. Lattimore, of Genesee Methodist College, and a member of the Genesee Conference, has been elected to and accepted the professorship of chemistry in Rochester University (Baptist): Martin B. Anderson (Baptist) President. Professor Quimby (Episcopalian) is the Professor of Mathematics. Besides this we have it from the best of authority that the new Baptist college which the Croziers of Philadelphia have founded is to be established upon the most liberal basis. The whole Crozier family, including that of Mr. William Bucknell, have always borne a catholic reputation. *Church Union.*

Gen. Sherman has received a telegram from the commander of Fort Laramie, stating that the hostile Indians refuse to meet the Commissioners, but will send runners to listen to any proposition. If the Indians are satisfied that the Commisioners are acting in good faith then the hostile chiefs will come in and hold a council at the full moon in November. The Commissioners will hold a meeting to decide what course to pursue.

The Norfolk Day Book tells of a lady passenger between Norfolk and New York, by sea, who, while her attention was directed to a passing ship, unfortunately plied the fan too near her person, and raked from her bosom a magnificent diamond brooch, knocking it into the sea. The value of the pin was $500.

Wheat speculators have started the story that there will be a large foreign demand for the new crop.

Dr. Nathan Durfee of Fall River has presented two beautiful bucks, one a South Down and the other a Cotswold, to the Agricultural College.

The Odd Fellows during the past year expended for relief of members of widowed families, educating the orphans, and burying the dead, $603,952.

The President has informed the Marylanders that he cannot interfere to prevent trouble at the coming election, and can only recognize the call of the Governor for aid after the disturbance has broken out. Well informed persons declare that there is no possibility of any riot.

There is a church in Madison, Maine, which it is said once caught fire high up on the wooden spire by a spark from another building. A bystander threw a snow-ball and hit the exact spot, thereby extinguishing the flames.

SECURE A POLICY

—IN THE—

NORTH AMERICA LIFE INS. CO.,

I. Because it gives more Liberal Policies, than any other Company. They are all nonforfeiting and incontestible. It insures **Officers of the Army and Navy,** in times of peace, at the usual rates, with no increased rate in event of hostilities. It makes no extra charge on change of occupation, nor for **TRAVEL or RESIDENCE, at any season of the year,** in the United States or Europe.

NEARLY A WORLD-WIDE POLICY.

It allows thirty days grace, on renewal payments and grants *weekly compensation* to those injured by public travel.

II. It is Most Secure.

It makes special deposits in the Insurance Department of the State of New York, for which the State guarantees the payment of its Policies, in case the Company should at any time fail to meet its obligation. No other Company gives the insured such security, or anything equivalent thereto. **That is Best which is Most Secure.**

III. It is most economical. Its ratio of claims and expenses, last year, was less than that of any other Company in the United States, which had been in operation a full year. Thus leaving in the hands of the Policy Holders the largest proportional sum for dividends.

New York Circus,

From the Hippotheatron Iron Buildings, Fourteenth Street, New York.

L. B. LENT,..................DIRECTOR.

Will Exhibit at Newport.

COR. PERRY and SPRING-STS.,

MONDAY, SEPTEMBER 23D.

THIS WELL KNOWN TROUPE,

the reputation of which will be familiar to all who are in the habit of visiting the City of New York, is permanently located during the greater portion of the year at its Colossal Iron Buildings, occupying a frontage of one hundred and twenty-five feet on Fourteenth Street, opposite the Academy of Music, and is universally acknowledged to surpass in the number and talent of its Artists, the beauty and thorough training of its Performing Horses and Ponies, and the splendor of its Wardrobe and Paraphernalia any similar exhibition ever brought before the American Public. As the position of this celebrated metropolitan establishment as the

LEADING CIRCUS OF AMERICA,

is too firmly established to be seriously questioned in any quarter, it is only necessary to state that the

ENTIRE MAMMOTH COMPANY

of the New York Establishment will appear at each representation, and that the performances will be found

MORE VARIED AND BRILLIANT

than anything hitherto witnessed on this side of the Atlantic.

The Galaxy of Stars

comprised in this mammoth Company includes

M'LLE CARLOTTA DE BERG,

The most dashing and daring Equestrienne the world has ever produced, whose extraordinary and unprecedented style of Equestrianism, so different from anything of the kind that has preceded it, never fails to inspire the wildest enthusiasm;—

EL NINO EDDIE,

The extraordinary youthful prodigy, who, although a mere child,

Surpasses Blondin on the Tight Rope,

and is the most graceful juvenile rider of the age;—

The world renowned

RUNNELLS FAMILY,

who as professors of the Classic School of Gymnastics are without rivals on earth;—

JAMES H. MADIGAN,

THE CHAMPION SOMERSET RIDER, who has no equal on this continent for feats of desperate daring, together with

The Greatest Force of Daring Riders; Accomplished Acrobats; Classic Gymnasts; Comical Clowns; Slack Rope Vaulters; Posture Masters; Equilibrists; Voltigeurs; Tumblers and Pantomimists,

ever brought together in this Country, involving

A Greater Expenditure for Salaries

than is incurred by any four travelling companies and embracing

More First Class Artists than can be found in any Circus in the World.

The Finest Stud of Performing Horses; The most Superb Collection of Educated Ponies; and the most Gorgeous Appointments of any Circus in Europe or America.

The Wonderful

Hurdle Leaping Buffalo!

☞ No Catchpenny Side Shows are allowed with this Establishment.

Admission, 50 Cents. Children under 10 years, 25 Cents. No Standing Room. Seats for All. Doors open at 2 and 7. Grand Entree at 2 1-2 and 7 1-2 o'clock.

The NEW YORK CIRCUS will exhibit at Fall River Sept. 21st.

GRAND

Presentation Enterprise.

THE COMMITTEE APPOINTED

WILL POSITIVELY DISTRIBUTE THE PRIZES AT THE

THIRD GRAND CONCERT

THAT WILL TAKE PLACE AT

IRVING HALL, NEW YORK,

TUESDAY, September 21, 1867,

BANKERS' and MERCHANTS' SECOND GRAND CONCERT was given at Irving Hall, August 24th.—It was a great success. The large hall was filled with the most respectable citizens of New York. The Committee that was appointed at the first Concert, announced to the audience that they would distribute the prizes at the next Concert, which will take place at Irving Hall, on the 21st of September, 1867.

When the Committee made this announcement, the audience gave them great applause. They were pleased to know that the prizes would be distributed at the next Concert on the 21st.

PROSPECTUS.

A number of the leading Bankers and Merchants of New York, in consideration of the great success which has attended many of the Charitable Presentation Enterprises of the day, have formed themselves into a company, with the view of inaugurating an enterprise which shall return them a fair profit, and offer greater advantages to ticket-purchasers than any yet presented; and which being conducted upon a perfectly legitimate and business basis, shall be free from the objectionable features which have characterized many of these enterprises.

To this end they have consigned the sale of tickets and the general management to Clark, Webster & Co., Bankers and Agents, No. 62 Broadway, New York, who will keep the proceeds in their custody until the day of the Grand Presentation Entertainment, when they will be handed over to a committee selected by the audience to make an impartial distribution of presents.

A reference to the number of presents and the general plan of distribution, given below, will convince even the most skeptical of the great advantages which will accrue to all who participate in the enterprise; and the Commercial and Financial standing of the Company, and the Managers and Bankers thereof, will, we hope, prove a sufficient guaranty of the fairness and honorability with which everything in connection with it will be conducted, and that the interests of ticket-holders will be most strictly watched over and guarded. In fact, it is the desire of the Managers to conduct every transaction for the mutual benefit of whoever shall purchase a ticket, and scrupulously to avoid any and everything which could in the slightest degree diminish the profits which are likely to accrue to all who invest.

Peerless Cooking Stove.

HEAR what the Boston Journal says of this superior article:

Among the peculiar merits claimed for this stove is the complete ventilation and even temperature of the oven, making it a roasting rather than a baking oven, which is secured by a peculiarly constructed air-chamber, which heats the air as it passes down behind the fire pot and into the oven, causing the oven to bake or roast perfectly and evenly, a great desideratum with a careful house-wife; the perfect control which can be kept over the fire, and its smallness. This stove works equally well with coal or wood. These stoves are of different sizes, and are made plain or with an extension top, the latter being made with a large reservoir for hot water on the top and a warming closet underneath. Those of our readers who would like to keep up with the times would do well to call and examine this "Peerless stove." Sole agent in Newport,

BALMORAL BISCUIT.

THIS much-esteemed Cracker, compounded and manufactured only by the subscriber, is acknowledged to be the finest and the most delicately flavored of any which has been provided to the discriminating taste of the public. Its merits have been fully tested for over a year in the family trade of the Bakery, and it is now offered to the general wholesale and retail trade of New York and other cities.

In inviting the public to test the acceptableness of a first-class Biscuit, the subscriber would state, as the only guarantee of its coming from the Scotch Bakery, that each cracker has his name, "Morton," legibly stamped thereon. The reputation of the

BALMORAL BISCUIT

is such as will create a demand outside of New York.

The permanent residents and numerous visitors in Newport will find a fresh supply of these much esteemed Biscuit at the Store of my only authorized Agent,

JULIUS SAYER,

No. 207 THAMES STREET,

Newport, R. I.,

Who will supply Hotels, Private Families and Stores, in any quantity. A single trial will convince them that the BALMORAL BISCUIT ranks highest in quality of all crackers in the States.

Alpine Bitters.

THE ALPINE BITTERS, imported exclusively from Switzerland, is made from Roots and Herbs, harmless in themselves, but marvelous in their strengthening properties. Their recuperative qualities are unrivaled, and are especially efficacious in all cases of Female Debility, arising from any cause whatsoever; also for Dyspepsia, Indigestion, Headache, Nervousness, Loss of Appetite, and as a positive preventive of Chills and Fever.

The ALPINE BITTERS have a soothing and restoring influence upon the system, especially upon the digestive organs, and is highly recommended to ladies and even children in delicate health, and to all who are averse to taking wine, poisonous whiskeys and other stimulants.

The continually increasing demand for this universal popular EUROPEAN TONIC AND ANTI-DYSPEPTIC ELIXIR, has induced the undersigned to make such arrangements abroad as will enable them constantly to supply all orders with which they may hereafter be favored.

Can be obtained by all Druggists and other dealers.

THE

CENTRAL

Pacific Railroad,

THE WESTERN HALF OF THE

Great National Trunk

Line across the Continent,

Being constructed with the AID AND SUPERVISION OF THE UNITED STATES GOVERNMENT is destined to be one of the MOST IMPORTANT AND VALUABLE RAILROADS IN THE WORLD, as it is the sole link of communication between the Pacific Coast and the Great Interior Basin, and the

Principal Portion of the Main Stem Line Between the two Oceans.

The present western terminus is at Sacramento, on the navigable waters of the Pacific; but it will ultimately extend from San Francisco across the richest and most populous parts of California, Nevada, and Utah, contiguous to all the great Mining Regions of the Far West. The Company are authorized to continue their line eastward, until it shall meet and connect with the roads now building east of the Rocky Mountain ranges.

Assuming that they will build and control half the entire distance between San Francisco and the Missouri River, as now seems probable, the United States will have invested in the completion of 765 miles $24,582,000, or at the average rate of $35,000 per mile—not including an absolute grant of 10,000,000 acres of the Public Lands. By becoming a joint investor in the magnificent enterprise, and by waiving its first lien in favor of the First Mortgage Bondholders, the General Government, in effect, invites the cooperation of private capitalists, and has carefully guarded their interests against all ordinary contingencies.

The Central Pacific Railroad enjoys all the privileges, grants, and subsidies conferred by the Acts of Congress upon the other parts of the through line, and has, in addition, several special, exclusive advantages of value only to the Western Half.

I. The Company has received from the State and cities of California, *assistance in money, credit, [illegible] worth over $3,000,000 in gold,* [illegible] to the full benefit of the Government

II. *The [illegible] and costliest part of its construction [illegible] been successfully overcome* within the first 150 miles. In a few weeks the track will be completed entirely across the Sierra Nevadas, after which progress to Salt Lake will be easy and rapid.

III. The local business alone of this road establishes its complete financial success, independently of the vast through traffic which must pass over it. The gross earnings for the months of June and July, upon the 94 miles then open for business were upwards of $297,000 in gold; of which *four-fifths* were net earnings.

IV. It can have no competition, but will carry, beside its own lucrative local traffic, the whole volume of through business which is shared among its Eastern connections and their branches.

V. The road lies wholly in territory yielding the precious metals, and its revenues are collected in coin. Its rates for transportation are very advantageous, being more than three times those of roads lying east of it; and the ratio of operating expenses is less than 25 per cent. of the gross earnings.

VI. In consequence of the aid it receives from the General Government, from the State of California, and from municipal corporations, the annual interest obligations on which the Company are called upon to assume are very light. The net earnings upon an average of about 75 miles, in 1866, were nearly three times the amount of annual interest liabilities to be assumed in building it, and were $125,000 more than the annual interest on the entire amount of First Mortgage Bonds which the Company can issue upon the first 150 miles.

The Company offer for sale, through us, their

First Mortgage Thirty Years, Six per Cent Coupon Bonds,

Principal and Interest payable in Gold Coin, in New York city. They are in sums of $1,000 each, with semi-annual gold coupons attached, and are selling for the present at 95 per cent. and accrued interest from July 1st added, in currency at which rate they yield yearly.

Nine per Cent. upon the Investment.

These Bonds, authorized by Act of Congress, are issued only as the work progresses, and to the same amount only as the Bonds granted by the Government; and represent, in all cases, the *first lien* upon a completed, equipped, and productive railroad, in which have been invested Government subsidies, stock subscriptions, donations, surplus earnings, etc., and which is worth more than three times the amount of First Mortgage Bonds which can be issued upon it.

The contract of this Company to pay principal and interest of their Bonds in coin, being made under the Specific Contract Law of California, authorizing [illegible] contracts to pay gold, is legally binding [illegible] made by companies in [illegible] sanction exists.

In these important particulars the Securities of the Central Pacific Company offer an unusual degree of safety, stability and profit combined.

The First Mortgage Bonds of this Company are destined to occupy a prominent place among FIRST CLASS SECURITIES in the money markets of this country and Europe, and will, without doubt, be eagerly sought for and extensively dealt in hereafter, at rates materially in advance of the price at which they are now offered.

Having carefully investigated the resources, progress and prospects of the road, and the management of the Company's affairs, we cordially recommend these Bonds to Trustees, Executors, Institutions and others as an eminently sound, reliable and remunerative form of permanent investment.
